

Versatile, minimalist, and cable-free: the first battery-powered lamp from Creative Cables.

With their wooden bodies and technological cores, these rechargeable portable lamps move freely, adapt to any space, and offer full customization.

CABLESS

BEAUTIFUL AND PORTABLE, BUT ALSO...

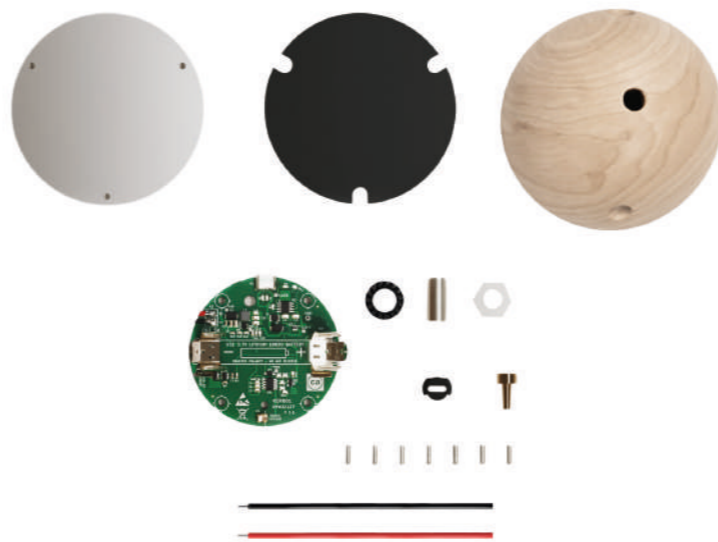

- Rechargeable** | Take Cables anywhere—its internal battery recharges easily via USB-C.
- Durable** | Built to last, with a focus on energy efficiency and waste reduction.
- High-quality** | A smooth, durable wooden base in different colors, with a brass button.
- Dimmable** | Adjust the brightness to your liking, from three intensity levels.
- Repairable** | Every component, from the battery to the 5V bulb, is easily replaceable.
- Made in Italy** | Cables embodies Italian innovation and excellence.

Where artisanal tradition meets modern technology.

EASILY DISASSEMBLED, ENDLESSLY ADAPTABLE

Cables is designed to be fully disassembled, ensuring that every part can be repaired, replaced, or recycled. This modular approach not only extends the life cycle of each lamp but also allows you to adapt it to your evolving needs.

**ABSOLUTE WINNER
2025 Edition**

Cables is more than just a portable lamp: it's a statement of sustainability that combines Italian craftsmanship excellence with responsible technological innovation.

Made with FSC-certified alder wood from Val Imagna, each lamp tells a story of environmental respect, using coppice wood that requires no tree felling. Thanks to its completely dismountable design, every component can be easily replaced or repaired, embracing the "right to repair" philosophy that fights planned obsolescence.

The choice not to include the standard USB-C cable aligns with the European Union's push against electronic waste, encouraging the reuse of existing cables. The rechargeable battery and the LED bulb, both replaceable, complete the profile of a made-in-Italy product that looks to the future, combining environmental sustainability, social responsibility, and territorial enhancement.

This support is the solution for creating a battery-powered portable lamp. Add extensions, lamp holders, and a lampshade of choice to customize any DIY lighting project.

CABLESS01 // CABLESS11

This table or desk lamp features a subtle, elegant conical shape. Choose the natural wood base with alder shades or opt for a painted finish. Select Cabless11 with the classic, elegant lampshade, or Cabless01, the version with naked bulb lamp holders. In the latter, you can pick from a range of 5-volt LED light bulbs and easily switch them out when they reach the end of their life cycle or to change the ambiance.
